Page No: 1 of 1

ASB Valiant as part of its corporate policy aims to be a leading EPC and integrated energy solutions provider by making quality management system an integral part of its operations.

ASB Valiant is 100% committed to attaining statutory/regulatory compliance, customer satisfaction and continual improvement of its quality management system.

This will be achieved through:

- ❖ Consideration of context of the organization and aligning the Quality Management System with the strategic direction of the organisation.
- ❖ Process leads and employee established quality objectives, which are monitored and measured to determine the extent to which quality objectives have been achieved.
- ❖ Establishment of relevant roles and responsibilities within the quality management system that can impact product delivery and service quality.
- ❖ Satisfaction of customer and applicable statutory and regulatory requirements, exceeding customer needs and expectations (where possible).
- ❖ Establishing, applying, maintaining, and continually improving the effectiveness of Quality Management System in line with ISO 9001:2015.
- ❖ Tracking and applying new technologies and educating employees in up-to-date Quality Management processes and principles to enhance performance with respect to service quality and product.
- ❖ Having a risk-based approach in managing quality management processes within ASB Valiant.

The framework for setting quality objectives is defined in line with the requirements of the ISO 9001:2015 standards.

The QHSE Manager is responsible for communicating the Quality Policy to all persons working for or on behalf of the organization and making it available to relevant stakeholders when requested.
